CHIA Requests – In Progress (including CHIA internal developments and maintenance):

Request Received Month	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
Aug-18	AKI Cohort Study Refresh	Regular	University of Southampton	Renal	Identify the incidence rate of AKI in people admitted to hospital. Identify the relative risk of developing AKI in different groups. To understand the epidemiology and consequences of Acute Kidney Injury (AKI), to inform future research to prevent community acquired AKI, and to assess the impact of Wessex CVD Network AKI initiatives to improve care.

CHIA Requests – Under Development and Awaiting Sign Off (includes requests waiting for Data Sharing Agreements):

Request Received Month	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
01/10/2018	Recurrent Stone Formers	Adhoc	University of Southampton	Long-Term Conditions	To identify if patients with single or recurrent kidney stones are at greater risk of metabolic syndrome (or the components thereof), urinary tract infections, chronic kidney disease or chronic pain syndrome than the general population without stone disease.

Completed CHIA Requests (last six months, by completed date):

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
Nov-18	Non-conveyance worksteam (Do Not Attempt Resuscitation – DNACPR)	Regular	Portsmouth CCG	Primary Care	<p>The purpose of the DNACPR project is to give people a choice if they want to be taken to hospital in the event of ill health. This is a system wide project, reviewing if the DNACPR option is offered consistently across PSEH, and if not, to encourage GP practices to discuss the option with their patients and therefore avoid unwanted admissions and transport to hospital.</p> <p>The information provided will allow CCGs to review areas with low numbers of the DNACPR code, and to then support GPs to offer this choice to their patients. Data will be refreshed six-monthly to track progress of the project.</p>
Oct-18	WH Diabetic Amputations	Adhoc	West Hampshire CCG	Diabetes	To assist in reducing unnecessary diabetic amputations by highlighting any interdependencies with regular foot checks.
Oct-18	Solent MIND	Adhoc	Portsmouth CC & CCG	Mental Health	<p>Explicit Consent Request - We need the following data for up to 6 individuals with explicit consent as monthly figures from June 2017 to June 2018 inclusive:</p> <ul style="list-style-type: none"> • Total monthly NHS costs • Monthly GP appointments • Monthly cost of these appointments • Monthly prescription costs
Sep-18	Future Planning Project - year 2	Regular	Wessex End of Life Data and ePaCCS Group	End of Life	<p>The reports requested will provide a record of the codes available in GPs systems that can be uploaded to the Summary Care Record. (The ECR Reports of codes uploading to the SCR from particular practices, CCGs or areas are not available from the National SCR team.)</p> <p>The XaX6Z (CTV3) and 9Ndn (READ2) codes if present in individual patient records will also indicate that FT template codes have transferred to the Summary Care Record.</p>

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
					Reports will be forwarded to CCG End of Life and Frailty leads so that they can monitor the uptake of the Future Planning Templates. If uptake is poor or slow then the reports will provide the evidence upon which to base incentive schemes for April 2017 onwards.
Sep-18	Ring Pessary Update V2	Regular	West Hampshire CCG	Primary Care	To identify existing GP practices providing Ring Pessary procedures within primary care and their activity that was performed in 2018/19, based upon specific Read Codes. These include codes for the Insertion of Ring Pessaries and the Removal of these devices too. This is to identify how many practices are actually carrying out this activity within primary care to see whether commissioning a Local Commissioned Service is viable and justifiable.
Sep-18	FG_SEH Future Planning template	Regular	Fareham and Gosport/South Eastern Hampshire CCG	End of Life	A previous version of this request was approved by the panel on 05/12/2017 for submission to the Wessex EOL group. This request requires the same information but GP practice identifiable and is for South Eastern Hampshire and Fareham and Gosport CCGs only. The data will be sent to the CCGs directly. Requirement is for a report showing the codes recorded on the GP record to see whether practices are using the Future Planning Template.
Sep-18	Leg Ulcers & Complex Wounds Service V2	Regular	West Hampshire CCG	Primary Care	Breakdown of the following activity conducted within Primary Care for WHCCG identified by specific read Codes per GP practice and split by patients under 65 years old, 65 to 84 and 85+: <ul style="list-style-type: none"> • First Appointment: Leg Ulcer • First Appointment: Chronic Venous Leg Ulcer • First Appointment: Complex Wounds • Follow up Appointment: Leg Ulcer

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
					<ul style="list-style-type: none"> • Follow up Appointment: Chronic Venous Leg Ulcer • Follow up Appointment: Complex Wounds
Sep-18	Basket of Procedures Y2	Regular	West Hampshire CCG	Primary Care	<p>Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG.</p> <ul style="list-style-type: none"> • Leg Ulcer treatment(s) • Post-operative wound management • Doppler Assessments • 24hr Blood Pressure Monitoring • Spirometry
Aug-18	Living Well/IPC evaluation	Regular	Portsmouth CCG	Long-Term Conditions	<p>Explicit Consent Request - The information required is data regarding patients who are part of the cohort for year 1 of the Integrated Personal Commissioning project. These patients have been identified using the ACG tool by GPs and referred to the Portsmouth Living Well Project managed by Age UK. The cohort is continuing to be added to on a monthly basis as referrals are being sent by GPs, therefore we would like to be able to monitor this change on a monthly basis and to monitor the their use of Primary, Secondary, Community and Mental Health Services until August 2016 in order to refine the finance model.</p>
Aug-18	PCC IAPT Pilot	Adhoc	Portsmouth CCG	Mental Health	<p>The request will evaluate the impact of a pilot which is expanding access to psychological therapies to include patients who also have comorbid long term conditions, by measuring the impact of the pilot on usage of primary care services.</p>

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
Aug-18	Ring Pessary Update V2	Regular	West Hampshire CCG	Primary Care	To identify existing GP practices providing Ring Pessary procedures within primary care and their activity that was performed in 2018/19, based upon specific Read Codes. These include codes for the Insertion of Ring Pessaries and the Removal of these devices too. This is to identify how many practices are actually carrying out this activity within primary care to see whether commissioning a Local Commissioned Service is viable and justifiable.
Aug-18	Leg Ulcers & Complex Wounds Service V2	Regular	West Hampshire CCG	Primary Care	Breakdown of the following activity conducted within Primary Care for WHCCG identified by specific read Codes per GP practice and split by patients under 65 years old, 65 to 84 and 85+: <ul style="list-style-type: none"> • First Appointment: Leg Ulcer • First Appointment: Chronic Venous Leg Ulcer • First Appointment: Complex Wounds • Follow up Appointment: Leg Ulcer • Follow up Appointment: Chronic Venous Leg Ulcer • Follow up Appointment: Complex Wounds
Aug-18	Case Managed Patients V3	Regular	NHS SCW CSU	Primary Care	Southampton City CCG have asked for a regular (quarterly) report to include analysis about patients who are case-managed or have a care-plan in place. <p>The aim is to measure the number of patients that are being recorded as commencing a care plan each quarter or have some relevant care plan activity, comparing activity with the previous year and also comparing the records against the actual number of care plans that are physically uploaded to the CHIE.</p>
Aug-18	Basket of Procedures Y2	Regular	West Hampshire CCG	Primary Care	Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG. <ul style="list-style-type: none"> • Leg Ulcer treatment(s) • Post-operative wound management • Doppler Assessments

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
					<ul style="list-style-type: none"> • 24hr Blood Pressure Monitoring • Spirometry
Jul-18	Leg Ulcers & Complex Wounds Service	Regular	West Hampshire CCG	Primary Care	Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG. <ul style="list-style-type: none"> • First Appointment: Leg Ulcer • First Appointment: Chronic Venous Leg Ulcer • First Appointment: Complex Wounds • Follow up Appointment: Leg Ulcer • Follow up Appointment: Chronic Venous Leg Ulcer • Follow up Appointment: Complex Wounds
Jul-18	Basket of Procedures Y2	Regular	West Hampshire CCG	Primary Care	Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG. <ul style="list-style-type: none"> • Leg Ulcer treatment(s) • Post-operative wound management • Doppler Assessments • 24hr Blood Pressure Monitoring • Spirometry
Jun-18	Basket of Procedures (Regular)	Regular	West Hampshire CCG	Primary Care	Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG. <ul style="list-style-type: none"> • Leg Ulcer treatment(s) • Post-operative wound management • Doppler Assessments

Month Completed	Project Title	Type of Request	Requestor (Organisation)	Clinical Area	Details of brief
					<ul style="list-style-type: none"> • 24hr Blood Pressure Monitoring • Spirometry
Jun-18	Ring Pessary Update	Regular	West Hampshire CCG	Primary Care	To identify the activity that was performed in in 2016/17, 2017/18 and ongoing monitoring of provision in 2018/19 for in GP practice for Ring Pessary procedures, based upon specific Read Codes. These include codes for the Insertion of Ring Pessaries and the Removal of these devices too. This investigation into ring pessary activity across primary care is to ensure that the provision developed via a local commissioned service is equitable across West Hampshire.
Jun-18	Leg Ulcers & Complex Wounds Service	Regular	West Hampshire CCG	Primary Care	<p>Breakdown of activity by specific Read Code for the following procedures conducted within Primary Care for WHCCG.</p> <ul style="list-style-type: none"> • First Appointment: Leg Ulcer • First Appointment: Chronic Venous Leg Ulcer • First Appointment: Complex Wounds • Follow up Appointment: Leg Ulcer • Follow up Appointment: Chronic Venous Leg Ulcer • Follow up Appointment: Complex Wounds
